

EDUCATION

- Fanshawe College**
Diploma of Education in Web Development & Internet Applications; GPA: 3.6
- London, Ontario, Canada
Sep. 2022 – June 2024

EXPERIENCE

- EMKTECH Yazılım**
Full Stack Developer
 - Developing end-to-end full-stack web and mobile applications using **TypeScript**, **React**, **Node.js**, and **Express.js**.
 - Building **SEO-optimized**, responsive-first UI/UX architectures to ensure seamless cross-device user experiences and strong search visibility.
 - Building scalable backend systems with **PostgreSQL**, focusing on performance, data integrity, and API efficiency.
 - Managing full application lifecycle including architecture, development, deployment, and optimization.
 - Dominion Automobile Association (DAA)**
Software Developer (Full Stack Focus)
 - Engineered high-performance user interfaces using **React** and **TypeScript**, focusing on intuitive navigation and user-centric design principles.
 - Executed complex **Salesforce (SOQL)** queries to perform deep data analysis and manipulation, ensuring data integrity across large-scale business datasets.
 - Streamlined data entry and update workflows by integrating Salesforce backend structures with responsive React frontend components.
 - Optimized frontend state management with **Redux Toolkit** to handle dynamic data retrieved from enterprise CRM systems efficiently.
 - Refactored legacy modules into a modern, component-based architecture, significantly improving application load times and maintainability.
 - RootQuotient**
Junior Software Developer
 - Built responsive and SEO-optimized web applications utilizing the **Next.js** framework and **Tailwind CSS** for utility-first styling.
 - Collaborated directly with designers to translate Figma mockups into pixel-perfect React components with a focus on mobile-first responsiveness.
 - Managed backend logic with **Node.js/Express**, designing RESTful endpoints that served dynamic content to high-traffic client applications.
 - Freelance**
Full Stack Developer
 - Consulted for international clients to deliver custom web solutions, prioritizing **UI/UX design**, accessibility (a11y), and fast load times.
 - Developed and deployed modern Single Page Applications (SPAs) using **React**, **Next.js**, and various utility-first CSS libraries.
- Turkey
Feb. 2026 – Present
- Canada
Dec. 2022 – Present
- Canada
Apr. 2022 – Dec. 2022
- Remote
2017 – Present

SKILLS

- Languages:** TypeScript, JavaScript (ES6+), Python, HTML5, CSS3, SQL, **SOQL**
- Frontend:** **React**, **Next.js**, Tailwind CSS, Redux Toolkit, responsive UI development, component-based architecture, accessibility (a11y), performance optimization
- Backend:** Node.js, Express.js, FastAPI, **Salesforce Data Management**, PostgreSQL, MongoDB, Java
- AI / Data:** NumPy, TensorFlow
- Tools & Workflow:** Git, Docker, Webpack, Vite, Figma, **Claude Code**, **Cursor**, AI-assisted development, prompt engineering, multi-LLM workflows
- Spoken Languages:** English (Fluent), Turkish (Native)
